

HYDRAULIC WORKSHOP TYPE PRESSES

RMT's H-FAB HBP is a high quality built workshop press brake that is a small but powerful single axis press brake. It is a cost effective solution for small bending jobs and prototyping. These presses are produced to up to 330 Tons capacity and can be customized and produced according to the customer's needs and requirements.

H-FAB HBP Series

STANDARD

- Chrome plated cylinder
- Steel welded frame
- Oil pressure gauge
- Pressure adjustment
- Tool
- Manual back gauge
- Press brake tooling
- Common off the shelf components, typically of German or USA origin (Rexroth, Parker, Sneiders, and Seimens)

OPTIONAL

- NC control
- Variable speeds
- Foot pedal control

5 way die

Included Punch

H-FAB HBP SERIES

Any open height, bed size, stroke are readily available upon customer request
