

The ability to process complex pipe bevels on 16"-60" material in minutes gives you vast flexibility and the ability to chase a variety of markets and customers. The PIPE SPOOL MASTER 60 gives you as a pipe fabricator, a BIG advantage over your competition. Your J, U & V bevels, including radius bevels are now easily programmed and processed in minutes rather than hours. With the upgraded controller you can even thread the ends of your pipe or tubes. Fabricators will experience consistent preparation of material and thus, a higher quality of completed work.

Standard Control

Simple-Easy Programming

Optional Following Attachment

PIPE SPOOL MASTER 60	DETAILS
Machine Capacity OD	16" - 60"
Wall thickness Capacity (one setup)	3.9"
Spindle RPMs Max	80 RPM
X Axis Stroke	5"
Z Axis Stroke	7" (Optional: up to 24")
Weight	23,160 lbs
Main Motor	30 Hp
Machine Dimensions (LxWxH)	112" x 108" x 112"
Standard Bevels/ Hard Tooling supplied with the machine	V Bevel (30° & 37.5°)
Complex Bevels (U, J & C dimensions)	Standard
Threading	Optional: Fanuc CNC
Follower / Tracer Attachment (Optional)	If pipe is out of spec - round or oval, attachment will trace pipe to meet customer specifications.
